Customer No.:	23456

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Pursuant to 37 C.F.R. §1.47(a), the instant petition is provided to establish proof of the pertinent facts concerning the refusal of joint inventor Dave Snyder to join in the above-captioned application for patent. This petition is made by the attorney for assignee UCAR Carbon Company Inc. ("UCAR"), and accompanies the Declaration joined by the remaining joint inventors signed for all joint inventors (and is filed the same day as an Assignment of the remaining joint inventors to UCAR Carbon Company Inc. and a Power of Attorney from UCAR Carbon Company Inc. to the undersigned).

The above-captioned application was filed on November 24, 2003 and claims priority from provisional patent application Serial No. 60/430,578, filed December 3, 2002.

At the time the invention of the above-captioned application was made, Mr. Snyder, through his company Carbon Materials Consulting Inc., CMCI, was under contract to UCAR as a consultant (see contract attached as Exhibit 1). Mr. Snyder's consulting agreement was extended twice and currently expires on December 31, 2004 (see Exhibits 2 and 3), although it is not believed that Mr. Snyder is currently actively consulting for UCAR.

The relevant portion of Mr. Snyder's contract with UCAR states that:

CMCI will promptly disclose to [UCAR], in writing and in reasonable detail, any and all inventions, improvement, developments, technical information, skill and know-how, patentable and unpatentable, which a CMCI representative makes, discovers or develops for, or in the course of, or as a result of, the performance of services hereunder ..., and the same will be and remain [UCAR's] sole and exclusive property throughout the world. (Exhibit 1, page 3, paragraph 9).

The agreement continues on to state:

CMCI will ... without any other consideration, execute all documents and do all acts which may ... be necessary or desirable to confirm in [UCAR] all right, title and interest throughout the world in and to the Subject Developments and to enable and assist [UCAR] to procure, maintain, enforce and defend patents ... throughout the world (Exhibit 1, page 3, paragraph 9).

Thus, the agreement signed by Mr. Snyder obligates him to execute the declaration for the above-captioned application, as well as an assignment to UCAR.

In addition, attached is a copy of a Declaration and Assignment executed by Mr. Snyder for earlier-filed patent application Serial No. 10/372,349, filed February 24, 2003 (Exhibits 4 and 5).

Attached as Exhibit 6 hereto is a copy of a letter sent to Mr. Snyder by the undersigned on March 10, 2004, providing a copy of the above-captioned application and the declaration and assignment needed for completion of the filing requirements and assignment of the invention to UCAR (as well as the formal papers required for a sister Taiwanese application). The attached (Exhibit 7) FedEx airbill and tracking sheet show that the letter was received at Mr. Snyder's address on March 11, 2004.

Following the March 10 letter, Mr. Snyder and the undersigned had at least two conversations and exchanged several voicemail messages. During these conversations and in the messages, Mr. Snyder refused to sign the requested documents, unless he was paid at least thirty thousand dollars (\$30,000) he felt he is owed by UCAR. However, Mr. Snyder has not, to the knowledge of the undersigned, at any time made a formal legal claim for any such monies he suggested he is owed by UCAR. In addition, Mr. Snyder also indicated that it would take an additional several thousand dollars to compensate him for his time in reviewing the above-captioned application, once UCAR agreed to pay the \$30,000+.

As the excerpted portions of Mr. Snyder's agreement with UCAR indicate, however, he is obligated to execute the required documents "without any other consideration." Thus, Mr. Snyder was obliged to execute the Declaration and Assignment required for the above-captioned application, and provided to him in March. In the intervening four months, he has declined to do so, and UCAR is within its rights, especially in light of Mr. Snyder's consulting agreement, to proceed without him.

The Commissioner is authorized to charge the fee of \$130 under 37 C.F.R. §1.17(h), as well as any deficiency, or credit any overpayment associated with the filing of this Petition to Deposit Account 50-1202.

Respectfully submitted,

SUBJECT: CONSULTING AGREEMENT

Dear Mr. Snyder:

The following will be an agreement between UCAR Carbon Company Inc. ("Company") and Carbon Materials Consulting Inc. ("CMCI") for the performance of certain consulting services, upon the terms and conditions hereinafter set forth.

Therefore, it is hereby mutually agreed as follows:

1. **SERVICES**: CMCI will perform consulting services as we may require during the term of this Agreement or any extension thereof in the field of carbon/carbon for use in truck, rail and automotive applications.

2. **AVAILABILITY**: CMCI will perform consulting services through D. R. Snyder on an "as-available" basis at all reasonable times requested by us during the term of this Agreement. CMCI services will be at the request of, and under the direction of, C. F. Chang.

3. **COMPENSATION**: In full compensation for CMCI services and agreements hereunder, we will pay CMCI monthly, within thirty (30) days after receipt of invoice at the rates of:

1-20 hours per month	\$100.00/hour
21-40 hours per month	\$85.00/hour
41 and greater per month	\$75.00/hour

for services performed by CMCI hereunder during the preceding calendar month at our request. Company agrees to pay CMCI for a minimum of twelve (12) hours per month for duration of this agreement. In addition, we will reimburse CMCI after receipt of CMCI invoice, for all reasonable traveling and living expenses necessarily incurred by CMCI while CMCI representative is away either from CMCI's regular place of business or from the primary location of performance of this Agreement engaged in the performance of services hereunder.

4. **INDEPENDENT CONTRACTOR:** CMCI will at all times be an independent contractor and not an employee of ours. The manner in which CMCI renders services to us will be within CMCI's sole control and discretion, although CMCI will cooperate with our personnel and use CMCI's best efforts in our behalf within the broad scope of the above outline of CMCI's services. CMCI recognizes and agrees that CMCI is not subject or entitled to any benefits, wages, or other terms and conditions of employment or otherwise under the policies, practices and procedures of the Company, its employees, agents and successors in interest as they may apply to employees of the Company, and agree that both this Agreement and services performed hereunder will be conclusively considered neither evidence of nor an application for employment by us.

5. **WARRANTY:** CMCI warrants that the consulting services to be performed by a CMCI representative hereunder will be performed in a professional and workmanlike manner in conformity with this Agreement. CMCI will comply with all applicable laws, rules, regulations and standards of any public authority having jurisdiction in performing CMCI consulting services. CMCI will observe our rules and regulations with respect to conduct and the health, safety and protection of persons and property while on our premises.

6. **LIABILITY:** CMCI assumes all risk and liability for loss of, or damage to property, and for personal injury, sickness and/or disease, including death resulting therefrom, sustained by a CMCI representative, if or where such loss or damage is incurred or such injury, sickness or disease is sustained, in connection with a CMCI representative's presence on our property and/or any services hereunder.

7. **CONFIDENTIAL INFORMATION:** Except as provided in Paragraph (8) below or as otherwise agreed to in writing by us, CMCI will keep confidential, and prevent the disclosure of Confidential Information as defined below; CMCI will not reproduce, use, deliver or otherwise exploit or permit to be reproduced, used, delivered or otherwise exploited, Confidential Information as defined below, to or for anyone other than the Company. As used herein, "Confidential Information" means and includes any and all non-public, proprietary information of the Company of the following: (i) information, know-how and data, whether technical or non-technical, which is in any way disclosed to CMCI by or on behalf of the Company in the course of, as a result of or in connection with this Agreement; (ii) all diagrams, plans, drawings, models, prototype devices, materials, evaluations, test results, specifications, data and notes, memoranda and other writings of a technical or economic nature which are furnished to CMCI by the Company for the performance of services hereunder or which CMCI prepares or procures, in the course of or for the performance of such services; and (iii) Subject Developments as defined in Paragraph 9 below. Such Confidential Information will be and remains the property of the Company. Promptly upon completion or termination of services hereunder, and at such time or time prior thereto as we may request, CMCI will deliver to the Company all copies of all reproducible Confidential Information. CMCI further agrees to refrain from writing on or marking Confidential Information in any manner, or from performing any other act with respect to Confidential Information, which is or tends to be contrary to or inconsistent with the Company's property rights in Confidential Information or CMCI's obligations concerning Confidential Information. CMCI agrees that Confidential Information of the Company is necessary and critical to the practice of the Company's business, and that disclosure thereof without consent of the Company would cause irreparable harm to the Company. CMCI also agrees that the restrictions of this paragraph are necessary and reasonable.

8. DISCLOSABLE INFORMATION: The obligations under Paragraph 7 above will not apply, however, to Confidential Information to the extent that Confidential Information is either: (i) known to the public and CMCI can establish such fact by reasonably convincing evidence; or (ii) was known to CMCI prior to the first disclosure to CMCI by or on behalf of the Company or any Affiliate and CMCI can establish such fact by reasonably convincing evidence; or (iii) received by CMCI in good faith from a third party (other than an Affiliate of the Company) not under an obligation of confidentiality to the Company and CMCI does not violate any obligation to a third party with respect to such Confidential Information. As used herein the term "Affiliate" means (i) any corporation 20% or more of the voting stock of which is owned or controlled by the Company, or (ii) any corporation owning or controlling 50% or more of the voting capital stock of the Company, or (iii) any corporation 50% or more of the voting stock which is owned or controlled by a corporation owning or controlling 50% or more of the voting capital stock of the Company.

9. SUBJECT DEVELOPMENTS: CMCI will promptly disclose to us, in writing and in reasonable detail, any and all inventions, improvements, developments, technical information, skill and know-how, patentable or unpatentable, which a CMCI representative makes, discovers or develops for, or in the course of, or as a result of, the performance of services hereunder (individually and collectively referred to as "Subject Developments"), and the same will be and remain the Company's sole and exclusive property throughout the world. CMCI will, at our request and expense, but without any other consideration, execute all documents and do all acts which may, in the opinion of the Company's counsel, be necessary or desirable to confirm in us all right, title and interest throughout the world in and to the Subject Developments and to enable and assist the Company to procure, maintain, enforce and defend patents, petty patents, copyrights, trademarks and other applicable statutory protection throughout the world on all Subject Developments which may be patentable or copyrightable. CMCI agrees that the copyright in any resulting work(s) created by CMCI in connection with CMCI's performance of services hereunder will be considered a work made for hire and will be owned by the Company or its designate and that CMCI will assign to the Company or its designate any rights CMCI may have in any resulting copyrightable work.

10. OTHER INFORMATION: The Company will not have any obligation or liability with respect to or arising out of our receipt of and/or use and/or disclosure of any and all unpatented inventions, technical information, know-how, data, drawings, documents, prototypes and models which CMCI at any time discloses or furnishes us in connection with this Agreement or in connection with the services covered by this Agreement and which do not become the property of the Company under Paragraph 9.

11. THIRD PARTY OBLIGATIONS AND SERVICES: CMCI hereby represents to Company that it will not provide services for the benefit of any third party during the term of this Agreement, if the services are within the scope of services as defined in Paragraph 1 of this Agreement. CMCI is, however, free to provide services to a third party (during the term of this Agreement and later) in the carbon/carbon field generally, so long as the services are not specifically within the scope of services described in Paragraph 1. Moreover, upon termination of this Agreement, CMCI is free to perform any services for any third party, with no limitation as to the scope of services provided, subject only to CMCI's continuing obligations of confidentiality as set forth under Paragraph 7 herein.

-4-

12. TERM: The term of this Agreement will commence on August 20, 2001, and shall terminate on July 31, 2002, provided, however, that either party may terminate this Agreement at any time on thirty (30) days prior written notice to the other party or immediately by written notice on breach of the Agreement by the other party. It may be extended by mutual agreement on such terms and conditions as the parties may agree on. It is understood and agreed that the services CMCI will perform for us under this Agreement are of a unique nature.

13. SURVIVAL: The provisions of Paragraphs 7, 8, 9, 10 and 11 will survive and continue after expiration or termination of this Agreement. This Agreement contains all the existing agreements and understandings between us. No modification of this Agreement or waiver of the terms and conditions hereof will be binding upon either party unless in writing and signed by both parties.

If a CMCI representative agrees to the foregoing, please indicate CMCI's acceptance thereof by signing the enclosed duplicate copy of this Letter Agreement and returning same to us.

Very truly yours,

Dear Mr. Snyder:

As you know, UCAR Carbon Company Inc. filed for patent protection on inventions you participated in while a UCAR consultant. I have enclosed herein formal documents needed to finalize these applications.

More specifically, attached is an Oath and Assessment required in Taiwan which needs only your signature; a Declaration for the United States which needs your signature and date where indicated; and an Assignment document for the United States that requires your signature, date, and notarization where indicated.

Because we are somewhat pressed for time, especially with the Taiwanese application, I would be most appreciative if you would execute these documents as indicated and return them to me by Wednesday, March 17, 2004. If we do not receive the executed documents by that date, one or both of the applications may go abandoned. Of course, if you incur any reasonable expenses in having the enclosures notarized, please let me know and we will reimburse you.

So you are aware, I may be following up with two (2) additional documents in the next few days which need execution.

Thank you for your attention to this matter.

Very truly yours,

WADDEY & PATTERSON
